

BEWARE OF THE **flu**MONSTER

ON-SITE FLUFIGHTERS CLINIC

Each year, the flu affects as many as one out of five people living in the United States. In fact, on average*:

- Up to 20% of the population get the flu
- More than 300,000 people are hospitalized from flu complications
- About 36,000 people die from the flu

Getting a yearly flu vaccine is the first and most important step you can take to protect yourself, your family and your coworkers from the flu.

A Kinney Drugs FLUFIGHTERS Clinic will be held at this location.

The Kinney Drugs **FLUFIGHTERS** Clinic makes it convenient and easy to get your flu vaccination. A certified immunizing pharmacist will be on site to administer flu shots. Check with the Human Resource Department for scheduled dates and times.

This season's flu vaccination will protect against the most common types of flu viruses.

Get Your Flu Shot - Not the Flu!

The CDC* recommends that everyone at least 6 months of age get a flu vaccine this season. It is especially important for people who are at higher risk to get vaccinated: older adults and individuals with chronic health conditions including asthma, diabetes and heart disease.

STOP BY THE ON-SITE CLINIC GET YOUR FLU SHOT!
